1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed Alpha Fund Managers Pty Ltd. ("Alpha Fund Managers" or "Investment Manager"), as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

Alpha Fund Managers Pty Ltd

Alpha Fund Managers is a boutique fund manager established in 2007 with the specific purpose of establishing the Alpha Fund Series. Alpha Fund Managers is a corporate authorized representative of Alpha Investment Management (AFSL 307379) ABN 13 122 381 908. Each Alpha fund has the aim of delivering consistent long-term outperformance across different market cycles, with a focus on delivering an appropriate blend of both capital growth and income.

The Alpha Fund Series invests in a broad range of asset classes including: Australian and international shares, property securities, infrastructure securities, Australian and international fixed interest, cash and alternatives.

2. How the Alpha Moderate Fund works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS or by making an application through the mFund settlement service ("mFund") by placing a buy order for units with your licensed broker. The minimum initial investment amount for the Fund is \$25,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Mainstream Fund Services Pty Ltd
Client Services Registry Team
GPO Box 4968
Sydney, NSW, 2001

Please note that cash cannot be accepted.

If applying via mFund you will need to provide the application money directly to your licensed broker.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.25%.

The Application Price will vary as the market value of assets in the Fund rises or falls.

Making additional investments

You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment into the Fund is \$10,000.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income quarterly at the end of June, September, December and March, however, Equity Trustees may change the distribution frequency without notice. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their AUD Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

Mainstream Fund Services Pty Ltd
Client Services Registry Team
GPO Box 4968
Sydney, NSW, 2001

or sending it by fax to +61 2 9251 3525

or by making a withdrawal request through mFund by placing a sell order for units with your licensed broker.

The minimum withdrawal amount is \$10,000. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s) or if the withdrawal is received via mFund.

Equity Trustees will generally allow an investor to access their investment within 7 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated bank account or, where the request is received via mFund, to the investor's licensed broker. However, Equity Trustees is allowed to reject withdrawal requests in some circumstances, and also to make payment up to 30 days after receipt of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.25%.

The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$25,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

3. Benefits of investing in the Alpha Moderate Fund

Investing in the Fund offers unitholders a range of benefits, including:

- Access to a Moderate diversified multi-asset class portfolio with the potential for long-term capital growth and income.
- Access to the investment expertise of Alpha Fund Managers.
- An emphasis on companies and issuers that demonstrate leading environmental, social and corporate governance (ESG) and ethical practices, while avoiding exposure to companies and issuers with activities that we consider to negatively impact the environment or society.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Interest rate risk

Changes in interest rates can directly and indirectly impact investment returns. Generally, an increase in interest rates has a contractionary effect on the state of the economy and thus the valuation of investments. For instance, rising rates can have a negative impact on the value of a fund or company as increased borrowing costs may cause earnings to decline. As a result, the unit value of the Fund or the share price of the company or unit price of a fund in which the Fund invests may fall.

Market risk

Changes in legal and economic policy, political events, technology failure, economic cycles, investor sentiment and social climate can all directly or indirectly create an environment that may influence (negatively or positively) the value of your investments in the Fund. In addition, a downward move in the general level of the financial markets can have a negative influence on the performance of the Fund.

Issuer specific risk

The value of investments can vary because of changes to management, product, distribution or an issuer's business environment.

Fund risk

Risks particular to the Fund include that the Fund could terminate, the fees and expenses could change, the Investment Manager or Responsible Entity could be replaced and the investment professionals could change. There is also a risk that investing in the Fund may give different results than investing directly in the underlying strategies or assets of the Fund. We aim to keep fund risk to a minimum by monitoring the Fund.

Security or underlying strategies selection risk

The Investment Manager or any of the investment managers of the underlying strategies in which the Fund invests, may make investment decisions that result in returns that do not meet your expectations. This risk is mitigated to some extent by the knowledge and experience of the Investment Manager and the underlying investment managers.

Legal risk

There is a risk that laws, including tax laws, might change or become difficult to enforce which may adversely affect the Fund. However, this risk is generally higher in emerging markets.

Liquidity risk

There may be times when the securities or any of the underlying strategies in which the Fund invests may become illiquid and may not be readily sold (for example, in a falling market where some traded securities may become less liquid). However, trading volumes of stock are generally sufficient to satisfy liquidity requirements when necessary. The Investment Manager has attempted to mitigate the liquidity risk factor by ensuring sufficient cash exposure in the Fund to meet liquidity requirements. Note that neither the Responsible Entity nor the Investment Manager guarantee the liquidity of the Fund's investments.

International investing risk

Investments in foreign trusts/companies may decline in value because of sovereign, political, economic or market instability; the absence of accurate information about the trusts/companies; and/or risks of unfavourable government actions such as expropriation and nationalisation. In times of market disruptions (including but not limited to market closures), security prices may also be delayed or unavailable.

Derivative risk

The Fund and any of the underlying strategies in which the Fund invests may use derivatives. In the case of derivatives, fluctuations in price will reflect movements in the underlying assets, reference rate or index to which the derivatives relate. The use of derivative positions to hedge the risk of physical securities will involve the possibility that derivative positions may not move perfectly in line with the physical security. As a consequence, the derivative positions cannot be expected to perfectly hedge the risk of the physical security. In addition, derivatives can lose value because of a sudden price move, or because of the passage of time.

Currency risk

Currency risk is the potential for adverse movements in exchange rates to reduce the Australian dollar value of international investments. For example, if the Australian dollar falls, the value of international investments expressed in Australian dollars can increase; if the Australian dollar rises, the value of international investments expressed in Australian dollars can decrease.

Pandemic and other unforeseen event risk

Health crises, such as pandemic and epidemic diseases, as well as other catastrophes that interrupt the expected course of events, such as natural disasters, war or civil disturbance, acts of terrorism, power outages and other unforeseeable and external events, and the public response to or fear of such diseases or events, have and may in the future have an adverse effect on the economies and financial markets either in specific countries or worldwide and consequently on the value of the Fund's investments. Further, under such circumstances the operations, including functions such as trading and valuation, of the Investment Manager, Fund Manager and other service providers could be reduced, delayed, suspended or otherwise disrupted.

5. How we invest your money

Warning: When choosing to invest in the Fund or an option of the Fund, you should consider the likely investment returns, the risks of investing and your investment time frame.

The Fund aims to provide a return (before fees, and expenses) that exceeds the Fund's benchmark over the medium to long term, with a focus on delivering an appropriate blend of both capital growth and income.

The Fund will be broadly diversified across a range of asset classes, including Australian and International Shares, Property Securities, Infrastructure Securities, Australian and International Fixed Interest, Cash and Alternatives. The Fund may also use derivatives.

The Fund will seek to invest in companies that demonstrate leading ESG and ethical practices while seeking to avoid exposure to companies and issuers with Core business in activities which we consider to negatively impact the environment or society.

Medium

There is a risk that investors may lose some or all of their initial investment. Higher risk investments tend to fluctuate in the short term but can produce higher returns than lower risk investments over the long term.

Investor suitability

The Fund is primarily suitable for investors with a Moderate risk profile seeking a combination of both capital growth and income (including franking credits).

Asset Allocation

20-40% Growth Assets (including Australian Shares, International Shares, Property Securities, Infrastructure Securities and Alternative Investments*)

60-80% Defensive Assets (including Australian Fixed Interest, International Fixed Interest and Cash)

(Note*: 20% maximum for Alternative Investments)

The below table outlines the Neutral Asset Class Allocations of the Fund. These Neutral Asset Class Allocations are closely in line with the current asset class weights of the benchmark.

Alpha Moderate Fund – Neutral Asset Class Allocations	
Growth Assets	31%
Australian Shares	11%
International Shares	14%
Property Securities	5%
Infrastructure Securities	1%
Alternative Investments	0%
Defensive Assets	69%
Australian Fixed Interest	28%
International Fixed Interest	17%
Cash	24%

Alpha will actively manage the asset allocation within the specified minimum and maximum ranges with respect to Growth and Defensive Assets.

Alternative Investments are those that do not fall within the bounds of major or traditional asset classes. They can include investments such as hedge funds, commodity investments, venture capital and private equity.

The Fund can invest assets that are denominated in foreign currencies. This means that potential for movements in exchange rates may impact on the Australian Dollar value of the Fund's investments.

The Fund may use derivatives to gain and manage exposure to assets and markets. Derivatives may also be used to hedge the risk of other exposures in the portfolio, for example foreign exchange.

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour, environmental, social and ethical considerations

Alpha's 'sustainable' investment approach takes labour standards, ESG governance and ethical considerations into account when selecting, retaining or realising the Fund's investments.

The Fund will not directly invest¹ in companies or issuers who are directly involved in the following activities:

- Production of Tobacco
- Manufacture of Controversial Weapons (such as cluster bombs and nuclear weapons).

The Fund will not directly invest¹ in companies or issuers with Core² business activities as per Alpha's Principles of Responsible Investment Policy³ as being directly involved in any of the following activities:

- Alcohol Production
- Gambling and the Manufacture or Provision of Gaming Facilities
- Manufacture of Non-controversial Weapons
- Manufacture or Distribution of Pornography
- Uranium Mining
- Coal Mining
- Oil Production

Note¹: The Fund may at times hold positions in Index ETFs and Index Derivatives. These positions may at times result in the Fund holding small levels of indirect exposures to companies or issuers which are involved in activities which contravene Alpha's Principles of Responsible Investment Policy.

Note²: Core business activities are those defined by Alpha as being a company's primary business activity.

Note³: Alpha's Principles of Responsible Investment Policy will be made available on the Alpha website.

Alpha's Principles of Responsible Investment Policy will also operate to review individual companies (with the prospect for potential exclusion) where there are material changes to a company's business activities and/or there are other relevant factors as determined by Alpha.

In addition to avoiding exposure to companies and issuers with activities that we consider to negatively impact the environment or society, Alpha's assessment of companies also includes an ESG Risk Assessment, which measures the degree to which a company's economic value may be at risk due to materially relevant ESG factors. The ESG Risk Assessment measures a company's exposure to material ESG risks and how well a company is managing those risks. While not being the sole focus of Alpha's investment strategy, Alpha will seek to favour more 'sustainable' companies or issuers with lower ESG Risk over those with higher ESG Risk as part of the investment decision making process.

Fund performance

Up to date information on the performance of the Fund will be available by calling Alpha Fund Managers on +61 3 8652 3854 or by visiting the Alpha Fund Managers website www.alphafundmanagers.com.au.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

³ The indirect costs component of management fees and costs and transaction costs is based on a reasonable estimate of the costs for the current financial year to date, adjusted to reflect a 12-month period. Please see "Additional Explanation of Fees and Costs" below.

Additional Explanation of Fees and Costs

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 0.65% p.a. of the NAV of the Fund is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees component is accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The indirect costs and other expenses component of 0.00% p.a. of the NAV of the Fund may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests and the costs of investing in over-the-counter derivatives to gain investment exposure to assets or implement the Fund's investment strategy (if any). The indirect costs and other expenses component are variable and reflected in the unit price of the Fund as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or the Investment Manager.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Fund will incur when buying or selling assets of the Fund. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Fund and are not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.25% upon entry and 0.25% upon exit. The dollar value of these costs based on an application or a withdrawal of \$25,000 is \$62.50 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and www.eqt.com.au/insto will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Fund are 0.13% p.a. of the NAV of the Fund, which is based on a reasonable estimate of the costs for the current financial year to date, adjusted to reflect a 12-month period.

In relation to the costs that have been estimated, they have been estimated on the basis of quotes obtained from vendors.

However, actual transaction costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2.00% of the GAV of the Fund. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients. Please contact the Investment Manager on +61 3 8652 3854 for further information.

mFund

Warning: if you are transacting through mFund your stockbroker or accredited intermediary may charge you additional fees (see their Financial Services Guide).

BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management fees and costs	0.65% p.a.	And, for every \$50,000 you have in the Alpha Moderate Fund you will be charged or have deducted from your investment \$325 each year
Plus Performance fees	Not applicable	And, you will be charged or have deducted from your investment \$0 in performance fees each year
Plus Transaction costs	0.05% p.a.	And, you will be charged or have deducted from your investment \$25 in transaction costs
Equals Cost of Alpha Moderate Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$350* What it costs you will depend on the investment option you choose and the fees you negotiate.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$50,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

Further reading

You should read the important information in the Reference Guide about fees and costs under the "Fees and other costs" section before making a decision. Go to the Reference Guide which is available at www.alphafundmanagers.com.au. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

Further reading

You should read the important information in the Reference Guide about Taxation under the "Other important information" section before making a decision. Go to the Reference Guide which is available at www.alphafundmanagers.com.au. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

Mainstream Fund Services Pty Ltd
Client Services Registry Team
GPO Box 4968
Sydney, NSW, 2001

If applying via mFund you will need to provide the application money directly to your licensed broker.

Please note that cash cannot be accepted and all applications must be made in Australian dollars.

Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over. Investors investing through an IDPS should use the application form provided by their IDPS Operator.

Cooling off period

If you are a Retail Client who has invested directly in the Fund, you may have a right to a 'cooling off' period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth business day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unit holder in the Fund during the 14-day period. This could include selling part of your investment or switching it to another product.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to the Fund and any rights an Indirect Investor may have in this regard.
